Lunch,
Invigorating.

The Food-Drink for All Ages — Highly Nutritious and Convenient
Rich milk, with malted grain extract, in powder form—dissolves in water—more healthful than tea or coffee. Used in training athletes. The best diet for Infants, Growing Children, Invalids, and the Aged. It agrees with the weakest digestion.
Ask for "HORLICK'S"—All Chemists, Hotels, Cafés and Stores.
Don't travel without it. Also keep it at home. A lunch in a minute. In Lunch Tablet form, also, ready to eat. Convenient—nutritious.

Furriers by appointment to
His Majesty King George V.

The New Top Coats from Burberry and Other Makers are here ready for you to try on.

The showing of these new coats is a very important part of our business just now; we have more than a thousand of very fine Overcoats that we want you to see. Many of these are tailored by Burberry, others are from our own wholesale tailors. Balmorans, Slip-ons, Raglans, Chesterfields, and Belted Back Coats in fabrics that will not be seen elsewhere. Men and young men both will find here their own particular style at \$20 to \$35.

Burberry Weatherproof Coats—rainproof without containing any rubber—are strongly featured here; some unlined, some well lined, and others silk lined. \$15 to \$25.

We're showing the best of the new English, French, Italian, and American Hats for Fall—every new shade and shape to choose from, at \$3.00 to \$5.00.

New Wash Gloves,
\$1.00, \$1.50.

New Silk Hats,
\$6.50 to \$8.00

RECEPTIONS FOR FRESHIES IN FOUR FACULTIES

To-night brings with it the reception given by the McGill Y.M.C.A. at Strathcona Hall to the Freshmen in Arts, Law and Medical. To-morrow evening the Medical Freshmen will have their turn.
Commencing at eight o'clock, each Freshman will be given a tag with his name written on it, this forming an easy mode of self-introduction in an informal manner. In this way a

fine chance is given of meeting one's fellow students.

During the evening, in addition to college songs and yells, short talks will be given by men prominent in college life. Amongst those who are expected to talk are "Pep" Paisley and George Laine, Harry Beatty, the President of the Daily, "Phineas" Fletcher, and A. S. Lamb, the popular gym instructor.

The chief speaker to-night will be Prof. John MacNaughton, who is sure to have a treat in store for all those who are present. The same can be said of Dean Birkett, and Dean Adams, who will be present on Wednesday evening.

At the close of the reception, refreshments will be served by the Social Committee of the Y.

MANY MATTERS DISCUSSED BY THE COUNCIL

First Regular Meeting Was Held
In the Union Last Night

PROGRESS OF THE MCGILL BATTALION

Private Wire Will Give First
Hand News of Rugby
Games

The first regular meeting of the Students' Council was held last night in the Union. There were many matters of great importance brought up. Mr. Dan P. Gilmour was sent up by the graduates to gain some information as to the progress of the McGill Battalion. It was generally thought that a great many of the students did not thoroughly understand the aim and purpose of this regiment. In graduate circles as well as around college, there are many diverse and wholly incorrect statements being circulated. It was suggested that if graduates who were intimately connected with McGill would address each individual class on the subject of the battalion and the future of those who enlisted, it would be the best means of clearing away doubt and misunderstanding which apparently exists throughout the college. In the course of the next few days when the classes are re-organized and existing their officers for the ensuing year, each class will be addressed on this subject.

The next important question was the formation of a Rooters' Club. The football club has the power to elect a leader of this important adjunct to football victories. Many names were suggested as leaders, but the president of the football club, Mr. George Laine, will not make any announcement until to-morrow. As the game with Varsity is not far off it was stated by Mr. Laine that a meeting would be held at 8 p.m. in the Strathcona Hall where the first practice would be gone through.

Mr. Harry O'Leary has made arrangements for a private wire to en-

(Continued on Page 4.)

SEASON TICKETS FOR FOOTBALL GAMES ON SALE

Single Game Tickets \$1.25—
Bleacher Seats Again 50c

The sale of tickets for the football season opened yesterday at the Union. The price of grandstand seats for a single game will be \$1.25, but to those who buy season tickets the price will be \$1.00. Some money has already been refunded to those who bought season tickets for three games. However, the season subscription will possibly include one or two exhibition games, although as yet no definite arrangements have been concluded in this regard.

The seats on the bleachers will be at fifty cents as usual. These will be rush seats and will be sold before the games.

Those desiring to obtain season tickets should do so without delay, and so obtain the best seats.

ERECTION OF THE NEW BLEACHERS BEGUN ON CAMPUS

No Stands at Ends of the Field
This Year

Operations on the temporary grandstand erected annually to accommodate the large attendance at the football games, began yesterday afternoon. The temporary grandstand will run parallel to the permanent one, and although not as large as in former years, it will be big enough to accommodate the Rooters' Club, and give seats to the ordinary admission.

The carpenters are erecting every care in the erection of the grandstand, on account of the serious consequences that might result in defective work. The work will be finished in the course of a few days.

BOOK EXCHANGE AT STRATHCONA HALL NOW OPEN

Books for First Two Years in
Arts and Last Two in Science
On Hand

The Book-Exchange at Strathcona Hall has once more opened its doors, and the management has on hand a large supply of books needed by the students. Most of the books required by first and second year Arts men, also third and fourth year Science men, can be secured at reasonable prices. Students who wish to sell any of their last year's books can bring them to Room B, Strathcona Hall, any afternoon between two and four. These books will be sold at the owner's price, plus 10 per cent. commission.

ROOTERS TO BEGIN WORK

First Workout To-night — Clip
Songs From Daily

A meeting of the Rooters' Club will be held in the Strathcona Hall at 7:30 p.m. to-night. It is important that every student should attend, bringing a copy of this issue of the Daily with him, so that he may practise the songs, etc.

This club is specially recommended by Coach Shaughnessy as a great asset to the football team.

R.V.C. Seniors Met Yesterday

Officers Elected for the Coming
Session

A meeting of the senior year of the R.V.C. was held on Monday, October 5th, for the purpose of electing officers for the ensuing year, with last year's president, Miss Dora Braidwood, in the chair.

The question of electing the Senior President, who also holds the office of R.V.C. Undergraduate President, was first considered. Miss Zoe Smith was elected to this most important office. Miss Smith then took the chair, and after a vote of thanks had been rendered to the retiring president, the election of officers was proceeded with.

The following officers were elected: President—Miss Zoe Smith.

Vice-President—Miss Muriel McLennan.

Secretary-Treasurer—Miss Netta Hardie.

Rep. Vice-President—Miss Lil De-muth.

A resolution was then passed that a class fee of one dollar be required from each member of the class. This fee should be paid at once.

Then followed the election of a representative to the Societe Francaise, Miss Kathleen O'Meara being chosen.

The concluding business of the meeting was the election of a representative to the Senior Play Committee, which resulted in the election of Miss Gladys Story.

The meeting then adjourned.

RIFLES.

It was announced last night by the Graduate Society of McGill University, who are attempting to equip the new battalion, that five hundred rifles will be received here some time during the week.

UNIVERSITY LECTURE TO-DAY

PROFESSOR MINES
WILL SPEAK

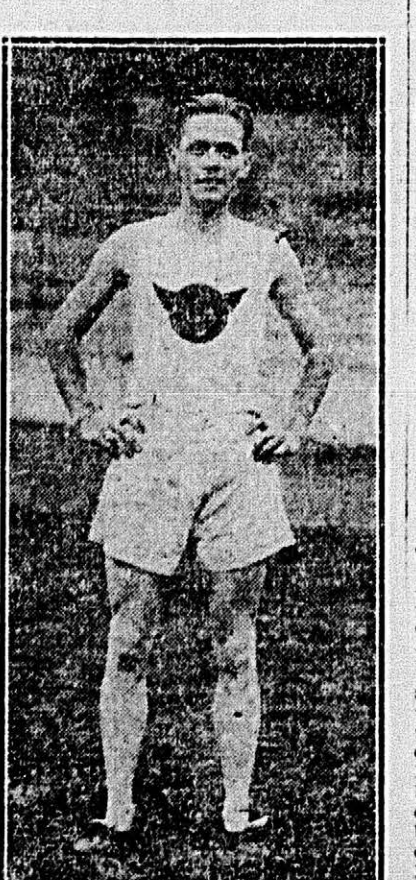

"Science and Individuality" Will
Be His Subject

The annual University Lecture for the session 1914-1915 will be delivered in the hall of the Royal Victoria College this afternoon at five o'clock.

The lecturer will be G. R. Mines, M.A., a Fellow of Sidney Sussex College, Cambridge, and Joseph Morley Drake, Professor of Physiology, and he has chosen for the subject of his address, "Science and Individuality."

Students and all friends of the University are invited to attend, and members of Convocation are requested to meet in the library off the hall at 4:15 in academic dress. This promises to be an exceedingly interesting lecture, and no person that has the time available should miss the opportunity.

Hillier

He was out for the first time yesterday

DEAN BIRKETT OPENS FACULTY OF MEDICINE

Med., With Many Others, Hear
Fine Speeches Yesterday Af-
ternoon at their Formal
Opening

DOCTOR GIRDWOOD MADE AN ADDRESS

Prof. Lewis Spoke on the Strides
Lately Made in Medicine

The annual sessional lecture in medicine was given yesterday afternoon in the Assembly Hall of the new Medical Building.

In opening the proceedings, Dean Birkett referred in affectionate terms to "dear old Dr. Girdwood," emeritus-professor of Chemistry, who, in spite of his blindness, was present to do honor to the distinguished guest of the afternoon, Dr. Thomas Lewis, a noted heart specialist from London and a well-known experimenter with cardiographs.

The subject of Dr. Lewis' address was "Syncope (faintness) of Cardiac Origin." Prof. Lewis gave a splendid example of the conservative European professional gentleman, presented this highly scientific subject in a very lucid manner. He ever strove to "step down" his remarks, bringing them within the range of understanding of the junior students.

"Diseases of the heart have been much better understood since the introduction of graphic perception of Cardiac movements. Hypotheses are useful only as guides to truth; dogma has no place in the guide to knowledge; medicine has been made a more exact science by the introduction of the electro-cardiograph." were some of the epigrammatic statements presented by the speaker.

Dr. Mackay moved a vote of thanks to the speaker, which was seconded by Dr. Martin.

Last evening the distinguished scientist was the guest of the Faculty at a dinner.

SUGGESTIONS FOR A LEADER ARE REQUIRED

Much of the Success of Rooters'
Club Depends on
Choice

Now that the Rooters' Club will be starting to hold practices, suggestions for a cheer leader are needed. These should be turned in to the executive of the football club as soon as possible. A lot depends on the leader, as was evidenced by the good work done last year by the club under the guidance of "Gry" Masson.

At the conclusion of to-day's practice the executive of the football club will meet to appoint a leader, and any names given to them before then will be considered.

SCI. UNDERGRAD REPS. TO BE CHOSEN THURSDAY

Nominations Must Be in by Five
To-day — Meeting Friday
on Library Question

All nominations for the position of Secretary of the Science Undergrad. Society, who is elected president of the '16, and a second year representative from Science '17 must be handed in by 5 p.m. to-day. Elections will take place October 8th. There is also a business meeting called for Friday, October 8th, in the Chemistry Building at 8 p.m., in order to discuss the Library question.

ANNUAL ELECTION OF OFFICERS FOR YEAR '15 HELD

At a poorly attended meeting of the year '15 last night, Mr. Pyles, a Science man, was elected president of the year. The vice-president is to be chosen from the R.V.C. and will be elected in the near future.

Mr. Paul Clark, of Arts '15, was made secretary-treasurer of the year.

Correspondence

The Editor, McGill Daily:—

Dear Sir,—As you well know that the McGill-Toronto "Varsity" football game is the game of the year, in Toronto, I would like to suggest that the McGill football authorities arrange that a considerable block of seats be at the disposal of McGill graduates who are now living in Ontario, and that the McGill undergraduates and others who come up to Toronto for the McGill-Varsity game, also occupy this block of seats. It would tend to increase college spirit, old friends could be brought together. There is no consolidation in the cheering for "Old McGill." I believe that if this idea is encouraged there will be, from 1915 on, an annual reunion of McGill graduates and friends at the McGill-Toronto University game each year in Toronto.

NOTES FROM THE OTHER COLLEGES

Coach Rice has issued a call to Freshmen over 135 pounds, to try out for the Columbia crew. Probably this limit will not be binding, as last year's victorious crew was very light.

125 men appeared for Varsity practice at Iowa last week. This is a record-breaking squad.

Secretary Garrison has recommended that the annual Army-Navy football games be abandoned permanently, because they cannot agree as to where they shall be played.

The fact that Cornell has now lost on the Hudson two years in succession, being obliged this year to contend herself with third place, led to the holding of outdoor Varsity practice on Lake Cayuga last Saturday, the earliest date at which it has ever been called in recent years. Practice last fall did not commence until October 11th.

FOUNDERS' DAY

To-day is the anniversary of the birth of the Honourable James McGill, the Founder of the University.

As a leading and public-spirited citizen of Montreal, he recognized the need of an institution for "the advancement of learning" and by his will, dated January 8th, 1811, he bequeathed the property of Burnside and the sum of £10,000 for its foundation. Our beloved Alma Mater is now the result of his far-sighted action.

Many of us let this day slip by without the slightest thought of our noble Founder, whose remains lie under the monument in the small grass plot in front of the Arts Building.

A history of the growth of McGill reads like an Arabian Nights' tale. From privations and struggles during the first few years, our great University to-day holds an enviable position in the list of educational centres of the world. We point with pride to its magnificent buildings, and enumerate proudly its various faculties; but let us just pause for a minute and think of the old Nor'wester, through whose munificence we boast a wonderful Empire-builder, and thank him, deep down in our hearts, for the opportunities we now can grasp.

THE FRESHMAN'S RECEPTION

In another column Freshmen will find details of the two receptions which are to be tendered to them by the McGill Y.M.C.A. Such gatherings are a feature at many American universities and we should like to impress upon you the value of such a gathering during your first days of college.

Coming as you do from homes and schools differing widely in location and nature, many of you find yourselves in strange surroundings and with few friends. Under such circumstances, a reception of this nature offers an excellent opportunity for meeting your classmates in an informal social manner.

Already you probably find yourselves bewildered by the numerous calls that are being made upon your time, not only by your professors, but also by those at the head of the various organizations—athletic, social and educational—which abound at college. How am I to divide my time in order that I may get the most out of my college course? Such is the question that you are asking yourself. Our advice to you is to come to the Hall and listen to the leaders of college activities outline their programmes for the year. You will then be able to give an intelligent answer to your question.

THE CAN. SEC. C. E.

We state, without hesitation, that every student in Applied Science should be a member of the Canadian Society of Civil Engineers. The benefits accruing from belonging to this excellent institution are innumerable. For one thing, the young engineer secures opportunities of meeting some of the most prominent men in the profession in the Dominion. Also, he is in a position to hear the proceedings of this Society, which proceedings represent fully, the best standards of engineering practice in this country. Again, he has the privilege of using an engineering and scientific library of the highest standing. These are only a few of the advantages that are apparent.

At the Society headquarters at 176 Mansfield street, are comfortable and commodious rooms, where the members may entertain their acquaintances. A reading room is fully supplied with all the current magazines, and we may say, that we have spent a number of enjoyable hours there.

The fees as student are quite small, and are quite lost sight of when the results are compared with the outlay. And to our mind, there is absolutely no question but that membership in this Society is a great help to a young prospective engineer.

BRAVERY AT SEA

A very fine act by the captain of a fishing steamer relieved the horror of one of the mine disasters caused by the German navy's warfare against non-combatants and neutrals. The steamer *Runo*, belonging to the Wilson Line, was on a voyage from Hull to Archangel, with some 250 passengers, chiefly Russians, though some were Americans. On the day she left port she struck a mine and sank, with some loss of life. Three steam trawlers, the *Silurian*, *Prince Victor* and *Straton*, steamed up and rescued a large number of those who were struggling in the water.

As Skipper Wicks, of the *Straton*, was driving in among the wreckage, the look-out man forward sighted two

mines ahead. "Look out, skipper, two mines ahead," he called. "Can't help it," shouted the skipper back, "it's risking lives to save lives," and he hazarded his ship to set alongside an overturned boat to which a dozen men and women were clinging. Even as they reached it a woman with an infant in her arms released her hold and fell back into the water, but the chief engineer, James Hannard fully clad, dived overboard, caught the woman, and swimming on his back, supported her and the child until the crew could pass a line and pull them to safety. The work of rescue went on at a feverish rate, for more than two hundred people were saved before the *Runo*, which all along had been, as a seaman put it, standing on her head, gave a lurch and disappeared.

FIRST FOOTBALL SQUAD HELD VERY LIGHT WORKOUT YESTERDAY

This Practice Marked the Beginning of a Strenuous Week's Work for the Team in Preparation for Saturday's Game with Toronto Here

DE MUTH THOUGH IN COLLEGE HAS INJURED FOOT

Our Line Is Strong and Prospects Are Bright for a Fine Back Division with Paisley, Laing, Jeffrey, Woolatt and Seath to Draw From

Light work and signals took up the greater part of the time at yesterday's practice of the football squad, Shaughnessy letting the men off lightly after the strenuous encounter with M.A.A.A. on Saturday. Pailing on the ball, running and signal practice were gone through in turn during the course of a two hour's workout, which was punctuated by lengthy parleys between the coach and players.

Herb Woolatt put in an appearance for the first time this season, and Pep Paisley was also in uniform, and these two, with Jeffrey, Laing and Seath, who composed the McGill back field on Saturday, make material out of which a less resourceful coach than Shaughnessy could easily develop an unbeatable rear division. Otto De Muth, who returned to college on Saturday, and who was expected out yesterday, did not show up on account of an injury to his foot, which he sustained a short time ago, and which may keep the husky scrumman out of the game for

a while. The injury may, however, prove to be more superficial than was at first supposed, and it is not unlikely that De Muth will be seen in his accustomed place on the line before the week is out.

Few of the team showed any ill effects from the game on Saturday, although Montgomery was limping slightly. Most of the players were in good shape, and in the work which they were allowed to do showed considerable snap. Lemay, who rested up on Saturday because of a sore arm, was at his place on the left side of the line. Rodden, who took the count on more than one occasion, was also out, and showed that the bumps he had received had not slowed him up at all. George Laing's ankle, which gave him considerable trouble on Saturday, seemed to have improved during the interval, and by the end of the week the team should be in as perfect condition as possible for their encounter with the strong Toronto fourteen.

The latter, from the showing which they made against their old boys, seem to be going at a fast clip, and will be as hard if not harder to stop than on any previous appearance here. Charlie Gage, who has played on the Varsity team for several seasons past, is captaining the Blue and White this year, and it is said that under his

leadership the team is showing greatly improved form. Any team which could hold the aggregate which the Toronto old boys lined up against the undergraduates, is likely to make McGill travel fast to win even on the local campus, and a close game should result when the two old rivals clash on Saturday. Shaughnessy is taking no chances with his men this week, however, and knowing the strength of the Varsity outfit, will not likely allow them to spring a surprise.

Owing to the fact that some of the plays were not executed with the usual success on Saturday the coach will probably drill the men hard for the balance of the week in order to perfect the working of the manoeuvres designed to rip holes in the opposing defense. The end runs, which failed because the halves kept coming in for the pass instead of taking it while heading in the proper direction, will probably be perfected by the end of the week, while the offside interference which lost the team much hard earned ground in the encounter with the M.A.A.A., will also be eliminated. The workouts from now until Friday will probably be the most strenuous seen this year, and by the time set for the Varsity game the machine should be working better than ever before at this early date. On Saturday the team showed excellent form, and with the few faults which must inevitably crop up in any aggregation, uncovered, by the recent test, the fans may look forward to seeing one of the best contests in years when Toronto and McGill lock horns.

SECOND TEAM SQUAD HAVE STIFF WORKOUT

Lots of Speed and Weight Make Promising Material for Strong Team

Thirty-five men were out on the campus yesterday with Sinc McEwen's second team squad, and for about two hours the coach put them through one of the stiffest workouts of the year, winding up with a short scrimmage between two teams picked from among the number.

Short sprints, signals and punting formed the main features of the practice, during which many of the candidates showed exceptionally good form. Several of the players who have been working out under Sinc's direction this season, would, under ordinary circumstances, be holding down positions on the senior line-up, but, owing to the fact that this year an exceptionally large number of men turned out who had played senior football for several seasons, they have had to be content with a berth on the intermediates. This, although it may not be to the liking of the men concerned, is an excellent augury for the coming season, and unless there is an unexpected falling off in the turnouts, the McGill second team should put up a better fight than last year for the intermediate laurels. The line looks heavy enough, and many of the men show that they have had considerable experience, while among the candidates for the back division are several speedy youngsters, who, with a little training at the hands of McEwen, should develop into excellent material for the senior fourteen. Sinc is working the men hard every day, and with over two weeks to go before the opening encounter, the team should be working smoothly. Last season the intermediates put up one of the hardest fights on record for the intercollegiate title, and were only beaten out in the home and home series by the strong St. Michael's fourteen. This year the coach expects to have his men in even better fighting trim, and if he realizes this, the team that beats McGill will have to cut out a whirlwind pace.

SENIOR RUGBY CAPTAIN TO BE CHOSEN TO-DAY

Election for this Important Office Will Take Place After Practice This Afternoon

After to-day's practice of the senior football squad the captain for the coming season will be elected. This has been made necessary by the resignation of Pep Paisley, who was elected to the position last year, but who, owing to the pressure of his studies, thought that he would be unable to fill the office, and accordingly resigned at a meeting of the football Executive held on Sunday.

Although Paisley's resignation was regretfully accepted, the crack McGill half-back has since ascertained that he will be able to play and was out at practice yesterday afternoon. It is understood that an attempt is being made to persuade him to re-accept the captaincy, and his name along with that of Chuck Waterous and Montgomery will be proposed at the meeting this afternoon. Both of the latter have seen considerable service, Chuck having held down a position on the McGill team since 1910, while Monty has already played on two championship fourteeners. A curious coincidence with regard to the choosing of this year's captain is that the three probable nominees all come from St. Andrew's College, Toronto, where they played for the school team.

WAITING FOR GERMAN NAVY

Here is a cheery letter from a midshipman in one of the British battle ships that are waiting for the German fleet to come out of hiding: It appeared in the London Morning Post: "A rumour got about that we had been sunk, some wooden gear that we had thrown overboard being found. We have not been sunk yet, nor, I am sorry to say, have we sunk any Germans. By the time this fetches up, however, I hope we shall have met them, captured most of them, and sunk the rest. We are all itching for

a scrap, and this routine is getting rather monotonous. We go to night defense stations for three and one-half hours every night, and sleep in our clothes during our watch off and after daylight. We go into harbour to coal every four or five days. In the daytime at sea we have nothing to do except to rig night defense gear (searchlights are stowed below at daylight), do physical drill, running round the ship, etc., to keep ourselves fit, and occasionally going to action stations. Of course, there have been various alarms, when we have had to rush to

our stations. But they are generally caused by some ham-handed horse marine firing a gun by mistake, or by some swivel-eyed lookout seeing one of our own ships and thinking it the enemy, or mistaking a sea-creature for the periscope of a submarine. Anything none of them have come to anything, but they tend to relieve the monotony, although at the expense of sleep, which is a rare luxury, especially at night. We have to sleep in the signal house, so as to be near our searchlights, and are waked up every two or three minutes by signalmen

coming in and falling over our feet (I can imagine you saying it serves me right for having such big ones). It is the only place where they can switch on a light to read signals. But in spite of these little inconveniences, I dare say we come off better than you. I am very sorry for everybody left at home; the war must affect them much more than it does us. I expect Hal is taking the war very seriously, and thinks it 'balmy' that he can't go to the front or come to sea? I am not allowed to tell you anything, and no will write no more nonsense."

The Canadian Board of Censors viewed 11,000,000 feet of motion picture films last year. More than 500,000 feet were prohibited.

Niagara Falls, N.Y., is to have an ultra-violet ray water purifying system.

Bradford, Eng., is to have an electrical exposition in October.

Albert Richards, a New York chemist, badly burned in an explosion, must wear a mask for the rest of his life.

Our Office Blue Suit at \$22.50

Is a suit that is silk lined with 2 pairs of trousers. The coat of this suit is made with a Hymo canvas front, soft roll, medium width lapels, with three buttons, which can be worn either rolling or buttoned up. Semi fitting back, fairly narrow sleeve effect, normal shoulder width. The length is 3 inches less than half the wearer's height. The vest is made to button up fairly high. Trousers medium width. The convenience of two pairs of trousers with the suit gives you the chance to have one pair made with cuff bottoms. Suit and extra pair of trousers \$22.50. If you just want the suit with one pair of trousers, \$18.50.

THE MILITARY HAPPENINGS AT OLD MCGILL

SPECIAL ORDER ISSUED ON FRIDAY RELATION OF THE MCGILL REGIMENT

Containing Full Particulars of the Whole Military Organization Operating at McGill University
At the Present Time—List of Officers and Organizers at the Head of this Organization

RULES AND REGULATIONS AT PRESENT IN FORCE

Details of Time to be Served Before Commissions can be Obtained by Men Now Serving in the Ranks

MILITARY TRAINING IN MCGILL UNIVERSITY.

Major A. C. Geddes,
Commanding McGill Contingent,
C. O. T. C.
The Order of the McGill Contingent
C. O. T. C. to the New McGill
Regiment.

1. The exact relation that will exist between the McGill Contingent C.O.T.C. and the McGill University Regiment has not been determined by the Militia Department. The following announcements are therefore to be regarded as provisional and applying only to the period of organization.

2. At the request of the McGill Graduate Society, Major A. C. Geddes, commanding McGill Contingent C.O.T.C., is acting as battalion organizer of the McGill Regiment.

3. The McGill Regiment although being formed with the express sanction and authority of the Government has not yet been gazetted and will not be gazetted until its organization is complete.

4. Until the Regiment is gazetted, and its commanding officer is appointed, the McGill University Regiment and the McGill Contingent C.O.T.C. will form one organization so far as University arrangements and internal affairs are concerned. Men who are enlisted in the C.O.T.C. to the number of 118 and who have been in training at least since August, will have an opportunity of proceeding to qualify for the Militia Lieutenant's Certificate in March. This will not affect their status in any way if they decide to join the McGill University Regiment.

5. After the Regiment is gazetted, it is probable that its commanding officer will also command the C.O.T.C. company or companies. In other

words, the McGill Contingent C.O.T.C. will form a special company or companies of the battalion so far as training is concerned, but will have a separate existence in official returns and will undergo special training and receive special lectures in addition to the training it will receive as part of the battalion.

6. It has been decided that in the future all officers of the McGill Regiment must have served in the ranks of the regiment. They will be selected as follows: Non-commissioned officers who show special keenness and aptitude for military work will be elected for further training and will be transferred, with their own consent, to the O.T.C. and after they have obtained their certificates will be available for appointment as officers of the regiment or of any other militia regiment in which they are invited to accept a commission.

7. Provided vacancies within the limit of establishment exist, nothing in Par. 6 will prevent any man who so desires from joining the O.T.C. company directly, that is without passing through the ranks of the regiment, but such individuals will not be eligible to hold commissions in the McGill Regiment though they will be fully eligible for all other regiments of the active militia.

8. The following internal allotment of duties is announced:

(a) Capt. McKergow, Adjutant C.O.T.C., McGill Contingent. To supervise the training of those provisionally selected to be officers in the new regiment. This provisional selection will be made at an early date.

In the meantime the Company Organizers: 1. G. Barclay; 2. R. Durley; 3. D. Gilmour; 4. C. Kemp; 5. G. McDonald; 6. P. Molson; 7. P. Sise; 8. W. Turner, are to undergo special training to qualify them to command

companies. As selections for special training are made the names will be announced and from those trained the first officers of the Regiment will be selected. (Note: All at present training, whether in the C.O.T.C. or not, are equally eligible for promotion.)

(b) Capt. Macge, Acting Adjutant McGill Regiment. To supervise and organize recruit training. Squads for preliminary drill will be formed as men enrol. Once they have become proficient in elementary drill, men will be definitely allotted to companies and thereafter will be trained in the ranks of their own companies.

(c) Lieut. Gordon. To act as Assistant Adjutant for the Regiment. To act as recruiting officer and to keep the rolls.

(d) Company Organizers: To act as recruiters for their own companies and to report all recruits obtained to Lieutenant Gordon. To undergo special training under Capt. McKergow.

9. All recruits must report the hour at which they can most conveniently drill. Squads to drill at 3.3, 4.15, 5.15 and 6.15, are being formed. All who can join the squads drilling at the earlier hours are requested to do so, as daylight drills in the open are to be preferred to drills indoors.

10. All recruiting for the C.O.T.C. is definitely closed, but there are no vacant places in the ranks within the limit of establishment of 118.

All recruits for the battalion by the act of enrolment undertake to train with the battalion, but are not, until the battalion is gazetted, required to take the oath or engage for service for any fixed period of time.

A. CAMPBELL GEDDES, Major
Commanding McGill Contingent C.O.T.C.
Battalion Organizer McGill University Regiment.

PARODIES WHICH THE ROOTERS CLUB WILL PRACTICE TO-NIGHT

All the Favorites, Old and New, Included in this Season's Offering of Rooters' Parodies

ROOTERS ARE OF GREAT ASSISTANCE

The Lusty-Lunged Squads, According to the Greatest Authorities, Do a Lot Towards Sending Victory to a Team

Cut this out and bring to the practice. Since the first Freshman entered college there has been a long continuous, unending flow of parodies. Good ones! Bad ones! Poor ones! Sad ones.

These parodies are the result of an eager desire on the part of some budding poets to assist as much as possible the heroes of the ice, track and gridiron in winning their hard-fought battles. We have the word of all the greatest coaches of the universe, particularly Shag Shaughnessy, that the respective teams are never on to victory by the songs, cheering and applause of their conferees on the side lines.

The origin of parodies has disappeared with all other famous essays, into obscurity and oblivion. And even the laborious efforts of the most illustrious Egyptologist, in tracing their origin, proves fruitless. It is fatally easy to take some old favorite poem and fit new words to it. The following are a few examples:

Tune: "Oh, You Beautiful Doll."

Oh! you beautiful team,
You great big beautiful team,
We will tell the world about you,
What would college be without you?

Oh! you beautiful team,
You great big beautiful team,
If you ever lose why then our hearts would ache
For all our goods and chattels are at stake,
Oh! Oh! Oh! Oh! Oh! Oh! Oh! Oh! Oh!

Honey, Honey, don't you hear,
Hear those fellows give the cheer,
That's the Rooters' band,
Hear them yell for Old McGill. Rah!

Here are a few of the parodies which have come to hand, a number of them having been in use last season.

The whistle will blow and you'll see the ball go over and over again.

(TUNE MARCHING THROUGH GEORGIA.)

Now our team is on the field, every nerve and muscle steels.
And determined that they'll win or die to-day.
See those fellows sure and strong, ready all the line along.
Queen will simply have to break and fade away.

Chorus:
Cheer then, cheer for Old McGill, boys.
Raise your voices in a song.
We must beat them on the play, for we're out to win to-day.
And the team in red and white will move along.

When the ball is put in play just you watch us break away.
And the team at once go marching down the field,
Queen will fight in vain, tho' they try with might and main,
And their goal to us they'll surely have to yield.

Chorus:
Cheer, then, cheer, etc.

TO THE TUNE OF TIPPERARY.

So it's good-bye to old Toronto,
And it's farewell to Queen's.
We are sorry we've got to trim you,
But the championship it means.
Shag only turns out winners,
Sine he is a bear,
And his whole team is made up of lions.

And we are right there.

TO THE TUNE OF "I'D DO AS MUCH FOR YOU."

Rah—we're going to win to-day, boys.
Rah—we couldn't lose to-day boys.
Rah—we've got the team to do it.
Watch them take the ball down the field.

Buck it over fellows.
Rah—McGill is always leading.
Rah—we're on our way.
We're always grinning,
For we're always winning.
Rah, Rah, we're going to win to-day.

TUNE—STEIN SONG FROM PRINCE OF PLESEN.

Better than riches of worldly wealth,
Are the days of our youth at college,
Radiant with happiness, friendship,
And warmed by love divine;
With hope and with joy they shine;
Sweeter than kisses we win by stealth,
And much sweeter still than snowed.

So come let us clink, and first let us drink

One toast to the brimming stein:
Here's to our University,
Here's to the White and Red,
Here's to each flourishing Faculty,
Here's to each fair co-ed,
To the boys who bring Old McGill her fame.

Whippersnappers befall,
Here's to the fellows who play the game,
Principal, Profs., and all.

McGill, McGill, our hearts do thrill,
When the Red and White's unfurled;
etc.

TUNE—"I WANT TO GO BACK TO MICHIGAN."

Have you heard of Old McGill,
The place that ever will
Uphold the sports, yet it also shines in
Lore.

It is famous over all
For it's a team that plays football,
They're champions for two years,
And are still on deck for more—
For when we see them play
Here is what we say:
McGill's the College,
Yes, it's the College,
Here the boys can play the game,
For they have the trainer, too.
We love to hear them,
And when we cheer them,
Do we know what they will do?
They're out to win, it takes
McGill to do it.
Nevertheless I want to be there,
I want to see there
The other fellows take their pill,
For if they're hard to beat,
That's what we like to meet,
At Old McGill.

A. B. ROGERS.

EXTRACT FROM 1914 INFANTRY TRAINING INSTRUCTION NOW IN FORCE IN THE ARMY

Taken From the Latest Manual of Infantry Training for the Benefit of Anyone Connected with the Military Movement at McGill—Sections 18 and 19

18. SALUTING TO THE FRONT.
a. By numbers.
b. By salutes.

Bring the right hand smartly, with a circular motion to the head, palm to the front, fingers extended and close together point the forefinger 1 inch above the right eye, or touching edge of peak of cap just above right eyebrow, thumb close to the forefinger, elbow in line, and neatly square, with the shoulder.

Two.

Cut away the arm smartly to the side.

19. JUDGING THE TIME.
a. Judging the time—salute.

Go through the motions as in par. 1, and, after a pause equal to two paces in quick time, cut away the arm.

Notes.—1. Saluting to the side is carried out as in Sec. 18, on the command right (or left) hand salute, except that the hand is brought to the salute, the head will be turned towards the person saluted. The salute will be made with the hand farther from the person saluted.

2. The salute will be practised in marching two or three together saluting points being placed on either side. When several men are together, the man nearest to the point will give the time.

3. When a soldier passes an officer he will salute on the third pace before reaching him, and lower the hand on the third pace after passing him, by carrying a cane he will place it smartly under the disengaged arm, cutting away the hand before saluting.

4. A soldier, if sitting when an officer approaches, will stand at attention, facing the officer, and salute

with the right hand; if two or more men are sitting or standing about the senior non-commissioned officer or oldest officer of the officer, call the whole to attention, and alone will salute (as above).

5. When a soldier addresses an officer he will salute with two paces from him, and salute with the right hand. He will also salute before withdrawing.

6. When appearing before an officer in a room, he will salute without removing his cap.

7. A soldier without his cap, or when carrying anything other than his arms, will, if standing still, come to attention as an officer passes; if walking, he will turn his head smartly towards the officer in passing him.

8. A soldier, when riding a bicycle or driving a motor vehicle, will turn his head smartly towards the officer in passing him, and will not move his hands from the handle bar or steering wheel.

9. A soldier driving a hoisted vehicle will bring his whip to a perpendicular position, with the right hand resting on the thigh and turn his head smartly towards an officer when passing him.

10. A soldier riding on a vehicle will turn his head smartly towards an officer when passing him.

11. Warrant and non-commissioned officers when wearing a sword will salute with the right hand.

12. The term "officer" includes naval officers, certain naval warrant officers and military and naval officers of foreign powers.

13. Warrant officers or soldiers passing troops with unadorned standards or colors will salute the standard or colors and the commanding officer (if senior).

14. Officers and soldiers passing a military funeral will salute the body.

15. When in command of unarmed parties, officers, and warrant officers and non-commissioned officers, when wearing a sword, will, in paying or returning a compliment, give the command Eyes right (or left) and at the same time salute with the right hand. Banks other than officers, when not wearing a sword, will similarly give the command Eyes right (or left), but will salute with the hand farthest away from the person saluted.

16. LENGTH OF PACE AND TIME AND MARCHING.

1. Length of pace.—In slow and in quick time, the length of a pace is 30 inches. In stepping out, it is 33 inches. In double time, 40 in. In stepping short, 21, and in the side pace, 14 inches.

2. When a soldier takes a side pace to clear or cover another, as in forming fours, the pace will be 27 inches.

3. Times.—In slow time, 75 paces are taken in a minute. In quick time, 120 paces, equal to 100 yards in a minute, or 3 miles 720 yards in an hour, are taken. Except during the first weeks of recruit training, recruits, when not in marching order, will take 140 paces per minute, in quick time at drill. In double time 180 paces, equal to 200 yards a minute, are taken. The time of the side pace is the same as for the quick step.

4. Marching in slow time will be practised only in the early stages of recruit training, and when required for ceremonial purposes.

5. Distances of 100 and 200 yards will be marked on the drill ground and non-commissioned officers and men practised in keeping correct time and length of pace.

RANKS OF REGIMENT FILLING GRADUALLY

Forty-three Men Joined Since Last Friday—Good Parade Yesterday

Recruits still continue to come into the ranks of the McGill O. Battalion. Although the men are not coming as quickly as when the formation of the battalion was announced, still the list is swelling gradually all the time.

There were about two hundred and fifty out on the afternoon parade yesterday. The parade was followed by a smartly under the disengaged arm, cutting away the hand before saluting.

The following is a list of the recruits who have joined since Friday:

Warriner, N. D.
McKewen, G. F.
Kennedy, H. C.
Lindsay, G. A.
Cotton, T. E.
O'Neill, H. L.
Dunbar, D. C.
McCarthy, S. F.
Walker, H.
McIntosh, S. A.
McNaughton, J. L.
Piedley, H. B.
Fisher, Eric.
Baron, L. H.
Thompson, G. D.
Law, A. J.
McCrackin, G. J.
Fragley, T. G.
Gosley, P. B.

PATROTIC REPLIES TO GRADS' APPEAL

Letters Still Being Received—All Good Canadians Who Wrote Them

Mrs. M. Inketter, Aldershot, Ont.
"Enclosed find one dollar, which please accept for the Canadian National Fund, as I am sure nothing would please the doctor more than standing by his old college, of which he was very fond."
James K. Fraser, Pembroke, Can.
"My son, Dr. W. G. Fraser, has done more than the one dollar; he has joined the medical staff in London and gone to the front."
George Robertson, Redlands, Calif.
"I thank you for allowing me to be one with you in form, as I am all with you in loving patriotism and heart."
"I'm afraid one of our directors has been mixing up the company's affairs a whole lot," exclaimed Mr. Dustin Stax.
"The worst of it is that the amount of money involved doesn't seem quite big enough in call for an investigation. I'm afraid it'll have to be a plain trial."—Washington Star.
"The baseball player is different from all other workers."
"In what way?"
"Nobody ever sympathizes with him when he goes out on a strike."—Baltimore American.

GERMAN CULTURE

An Englishman residing in Ottawa has received a letter, dated September 14th, from relatives in England. In the course of it, the following passage occurs:

"The M's of G— had a German governess for the children. The police called at G— Castle a few days ago and asked to have her sent out for a walk, as they wished to search her room. This they did, and found a number of bombs, etc., concealed in her trunk and about the room, and they say other German governesses round here have been found doing the same thing."

HAILE ALMA MATER.

Haile! Alma Mater, we sing to thy praise;
Great our affection, tho' feeble our lays.
Nestle thy peaceful and calm 'neath the hill;
Fondly we love thee, our dear old McGill.

Haile! Alma Mater, we sing to thy praise;
Loud in thy honor, our voices we raise.
Full to thy fortune our glasses we fill
Life and prosperity, dear old McGill.

Haile! Alma Mater, thy praises we sing,
Far down the centuries still may they ring;
Long thro' the ages remain, if God will—
Queen of the colleges, dear old McGill.

COME FILL YOUR GLASSES UP.

Come fill your glasses up,
To McGill, McGill, McGill,
Come drink a loving cup,
To McGill, McGill, McGill,
We will drink the wine to-night,
Drink the wine that makes hearts light.

Come fill your glasses up,
To McGill, McGill, McGill.

Come sing a joyous song
To McGill, McGill, McGill,
Sing as we march along
To McGill, McGill, McGill,
We will rally on the field,
We will make our rivals yield.
Victory shall crown the shield
Of McGill, McGill, McGill.

TO THE TUNE OF TAMMANY.

James McGill! James McGill!
For he the slumbers there,
Blissful though we're on a tear,
James McGill, James McGill,
He's our father, well yes, rather,
James McGill!

William C. McGill!
He doth march our College run,
Giving William P. the Mon.
William C. McGill,
Ain't it funny, so much money,
William C.!

(TUNE EVERYBODY'S DOING IT.)

Honey, Honey, Don't you hear?
Hear those fellows give the cheer.
Hear the rooters' band,
Up there in the square.
Hear them yell for old McGill—Rah!
Hon, Hon, Hon, Ain't it fine,
See McGill gains all the time,
Jeffrey, Laing and Seath,
A fooble trinity,
Moves that ball along,
Everybody's doing it, join it, don't it,
E-E-Everybody gains a bit, gains a bit, gains a bit,
Just watch that couple over there,
Whistle blows, then through the line they tear.
Poor old Varsity are in despair,
Hear 'em swear, hear 'em swear, hear 'em swear,
E-E-Everybody's doing it, don't it,
E-E-Everybody gains a bit, gains a bit, gains a bit,
See that line there bustin' apart,
Just as soon as ever we start
How that sight does touch my heart
E-E-Everybody gains a bit now.

S.C.L.F.

Old McGill, Old McGill
Varsity can go to
R. M. C. and Queen's as well
Old McGill, Old McGill.
Race them, chase them, Race them,
chase them
Old McGill.

For they'll do the same thing over,
Over again, over again,
They put the same old ball over,
Over and over again,
They will tear up that Varsity line,
And boys then all over and then

TO THE TUNE OF "IN OLD NEW YORK."

At Old McGill, at Old McGill
The Campus crop is fine (Sure!)
They're always there,
They're on the square
For scarlet and white are in line
We've seen the teams that came from Queen's.
Likewise from Varsity,
They're pretty fair,
But can't compare with McGill (etc.).

TO THE TUNE OF "WHEN I GET UP ALONE TO-NIGHT."

When we get Varsity to-day,
We'll push that old ball over,
And over, and over,
Oh! Oh! Oh!
Don't be afraid.

When we get Varsity to-day,
We'll show them an improvement,
On the latest football movements
When we get Varsity to-day.

TUNE—"TAKE ME TO THAT SWANEE SHORE."

Oh, won't you take me to that football game,
So I can see Old McGill play pines more.
Palsies there—he's a bear,
There's Jeffrey and Monty,
There's Tooley and Quilly,
And many more, no time have I to name.
The boys just arrived, now watch them in the game.

TUNE, "IN MY HAREM."

At McGill, McGill,
There's Laing and Jeffrey, Quilly,
And they're at it every minute,
Sure Varsity's not in it,
Queen's for breakfast and dinner,
R. M. C. will do, you can bet they'll chew them up, because we're cut for sore.

At McGill, McGill,
There's Monty, Chuck and Billie,
And we shout and sing,
Till we make the campus ring,
With the echoes of old McGill.

MCGILL YELL.

We're out for gore,
We're out for gore,
We're out for gore,
Keep her low,
Keep her low,
Let her go,
M-e-g-i-l-l.

What's the matter with old McGill?
She's all right. Oh, yes, you bet.
McGill, McGill, McGill,
Rah! Rah! Rah!
Rah! Rah! Rah!
McGill.

We've got you, we've got you,
We've got you Varsity,
We shout and fight for the Red and White and the honour of M-e-g-i-l-l.
Erpaday, Erpaday, Erpaday,
Rapidly, Rie,
We've got you, we've got you,
We've got you Varsity,

COLUMBIA DRAMATIC ASSOCIATION NEW CUP

M.S.S. of Plays Now Being Turned In—Old Stars Back

On Thursday morning the Columbia University Dramatic Association will place on exhibition in East Hall, the silver cup announced last spring as a prize for the best Columbia student play accepted for the 1914-15 production.

The cup, an elaborate piece of Sheffield, was offered for the purpose by an anonymous donor. It is understood, however, that the cup donor is related in an interesting way to a well-known British author.

Probably the presentation of the cup will be attended with some formalities and will be made at one of the performances this fall.

With the return to the University of Richard Hale, who last year acted in Mrs. Fiske's company, and the departure of Miss M. Bowden's departure for Europe, the C. U. D. A. already sees a promising nucleus for this year's cast. Others of last year's successful production are also available. However, there will be ample opportunity for a number of prospective actors, both men and women. All tryouts for the cast will be on a strictly competitive basis. And it is rumored that an additional avenue of activity may be open to C. U. D. A. cast candidates.

An Industry of Which Every Canadian Has Reason To Be Proud!

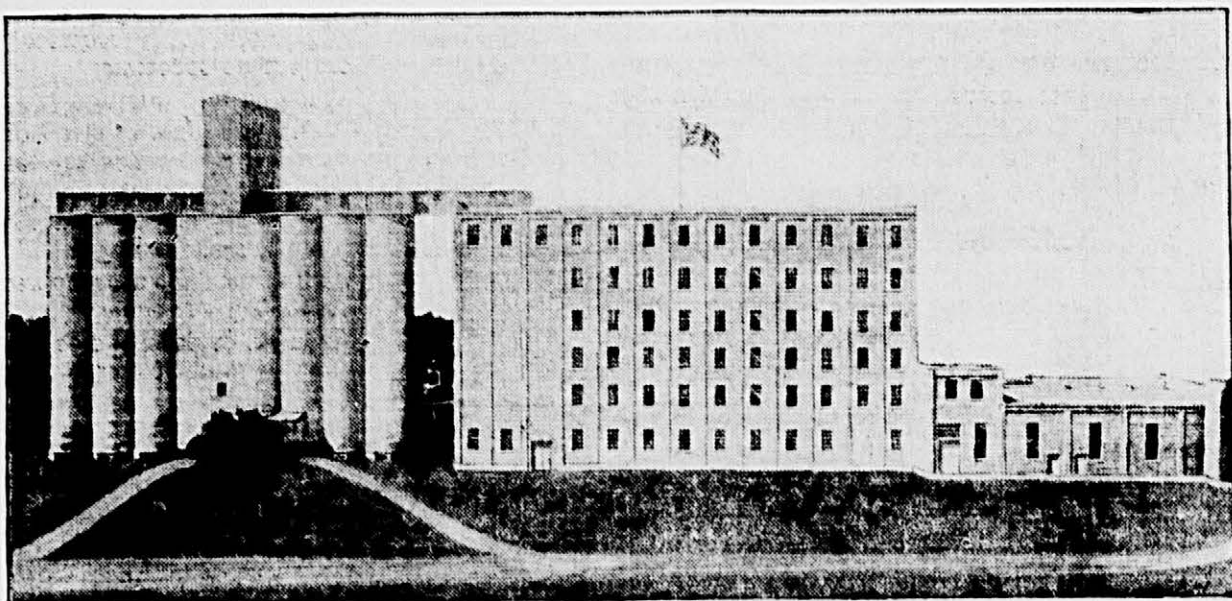

As the food supply of the country is a very important factor just now, we think a few facts, relative to the output of one of the largest flour mills in the Dominion, will prove most opportune at the moment, and may be the means of dispelling some of the gloomy forebodings, now obtaining, as to the probability of a shortage in the flour supply.

The following facts re the Ogilvie Flour Mills Co., Limited., should, from an economic point of view, prove of particular interest to the readers of the McGill Daily.

To grind the wheat and convert it into flour, the company has mills at Montreal, Winnipeg, Fort William and Medicine Hat.

The total output per day of these mills, which number five, is 17,000 barrels. When you realize that every barrel contains 196 lbs. of flour, you can, by multiplying the latter figure by the number of barrels produced per day, form a better idea of the enormous daily capacity of these mills which amounts to the large figure of 3,332,000 lbs. of flour daily.

In addition to this, the Ogilvie Company has two cereal mills with a daily capacity of 2,000 bbls., or about 400,000 lbs. of Rolled Oats and other cereals per day.

MEDICINE HAT MILL OF THE OGILVIE FLOUR MILLS CO., LIMITED.
Completed in 1913.

Besides the above mills for grinding wheat only, the company own two barrel factories, one in Montreal with a daily capacity of 2,500 barrels, and one in Winnipeg turning out 500 barrels a day.

To take care of the wheat as it is delivered by the farmers, the company has 134 elevators scattered throughout the country, as well as nine terminal elevators.

The above elevators give the company a capacity for interior storage of 4,195,000 bushels, and a terminal storage capacity of 4,200,000 bushels, making a combined total storage capacity of 8,395,000 bushels of wheat.

Besides the storage capacity just mentioned for wheat, there is a total flour storage capacity of 377,000 barrels, sufficient space to accommodate the total output of all the mills for 20 days, giving the company ample margin for any delay in obtaining the necessary transportation.

The Terminal wheat elevators and flour warehouses are located in Montreal, Winnipeg, Fort William and Medicine Hat, but space does not permit us to give the locations of the 134 interior elevators already referred to.

The company maintains, at Montreal, a fully equipped laboratory, under the supervision of an experienced chemist and analyst, where the daily runs of the various mills are thoroughly tested, so that they may be kept up to a standard and the uniformity of the brands constantly maintained, regardless of any variation in the quality of the wheat.

The five best known brands of the Ogilvie Flour Mills Co., Limited., are Royal Household, Montroyal, Glenora, Special Patent and Manitoba.

In cereals, they have no less than ten different brands put up under the following names: Ogilvie Oats, Granulated Oatmeal, Standard Oatmeal, Royal Breakfast Food, Pearl Hominy, Wheat Pearls, Meota, White Corn Flour, Golden Corn Meal and Sunshine Corn Meal.

They also manufacture special feeds which are branded as, Straight Corn Meal, Regal, Champion, Eureka, Creamo and Puritan.

The Company has branch offices at Quebec, St. John, N. B., Fort William, Ottawa, London, Toronto, Hamilton, Ont., Winnipeg, Man., Medicine Hat, Calgary, Alta., and Vancouver, B. C.

Comparing the profits of the company from year to year, the years 1903, 1907 and 1909 show remarkably good earnings, being respectively \$618,109, \$630,685, and \$716,054.

The average net yearly earnings for the past 10 years are \$519,989, which, based on a total capitalization of \$6,250,000, divided into 2,000,000 Preferred Stock, paying a 7% dividend, \$2,500,000 Common Stock, paying an 8% dividend, and a bonded debt of \$1,750,000, paying interest at 6%—leaves an average annual surplus, after paying full dividends on the Preferred and Common Stocks and interest on the bonds, of \$74,989.

The net earnings for last year, 1913, were \$576,734, which, after paying dividends on the preferred and common stocks, interest on the bonds and all operating and depreciation charges, leaves a surplus of \$131,734—certainly a remarkably good showing.

In December, 1913, the company made a further Bond Issue (Series "C") of \$600,000, secured by its new plant at Medicine Hat, together with a number of interior elevators. The total bonded indebtedness is therefore now \$2,350,000. The first year's earnings on this increased capital will be published at the next annual meeting, to be held in October, 1914.

While the Ogilvie Milling business has been in existence for more than one hundred years, having been founded in 1801, the present limited liability concern was only formed in 1902.

The capital of the Company then consisted of \$1,600,000 preferred stock, \$1,250,000 common stock, with a funded debt of \$1,000,000.

The present capital is \$2,000,000 preferred stock, \$2,500,000 common stock, with a funded debt of \$2,350,000, which latter matures in June, 1932, but is subject to redemption at any time now at 115 with interest.

Interest on the bonds at 6% is payable half-yearly, June 1st and December 1st.

Dividends on the preferred stock are paid quarterly, on the 1st March, June, September and December, at the rate of 7% per annum, and on common stock quarterly on the 1st January, April, July and October, at the rate of 8% per annum.

The following gentlemen form the Board of Directors of the Company: Messrs. C. R. Hosmer, President; W. A. Black, Vice-Pres. and Managing Director; Sir Montagu Allan, C. V. O.; Messrs. H. S. Holt, Chas. Chaput, George Drummond, Shirley Ogilvie, C. B. Gordon and A. M. Nanton.

Futurities

MED. '17.

The year meeting will be held this afternoon at 1.30 in Strathcona Hall. All members of year 1917, including Medicine '18, are to attend, as important business and election of officers will take place.

ATHLETIC ASSOCIATION.

There will be a meeting of the executive of the Athletic Association on Wednesday at 5 p.m. in Strathcona Hall. Business revision of constitution.

R. R. STRUTHERS,
Secretary.

HANDBOOKS.

BIBLE STUDY.

There will be a supper in Strathcona Hall this evening at six-thirty, to start off the Bible Study campaign. All those approached about canvassing are requested to attend, and any who desire to help will be welcomed.

TENNIS TOURNAMENT FINISHED AFTER CLOSE PLAYING

It Will Help to Decide This Year's Team

The tennis tournament to assist in choosing this year's team came to a close yesterday. The results were very close, and play was characterized by its excellence and closeness.

The surprise of the tournament was the playing of Newsam in his game with Greene, which resulted in a win for Newsam by a score of 8 to 7.

The results of the games are given below:

Cleveland	50
Greene	46
Ward	45
Dempster	51
Taylor	23
Newsam	24

A meeting was called immediately on the close of the tournament and Mr. H. Ross Cleveland was elected captain of the team.

A communication was received from Queen's Tennis Club, suggesting the 19th and 20th as dates for the inter-collegiate tourney. These dates are very inconvenient to the club here, who have compromised and suggested the 14th and 15th.

The entries for the club singles and the Freshman singles close tomorrow, Tuesday evening, at 5 p.m. The entry fee is 25c for each event.

As four entries in the club singles are still needed before the required number can be made up, it is necessary and desirable for men to enter their names at the "Shack" at once.

Eight entries have been received in the Freshman event, this will be started on Wednesday afternoon. Watch the Daily for the draw.

Bright Reports From Track Club

A large squad of first and second year men were out yesterday training for the meet on Monday next, as well as several from the upper classes. Tom Graydon looked more cheerful than he has for many a long day, and with good reason.

A great deal has been done when enthusiasm for the sport begins to show up, and if the new men in college will only turn out at once, and those already out continue the good work, there will be no doubt but that McGill will have as fine a team this year as she has ever had. In the meantime, however, the Freshman-Sophomore meet is the immediate issue, Monday being a holiday, a full house is assured, and the various entries give promise of some fine work.

Attention is once more called to the entry lists, which are now placed in the Union and at Strathcona Hall. There is no fee charged for an entry, all that is necessary is to sign under those events in which a man is interested, and then to turn up on Monday.

There are three days during which these lists are to remain open, but there is no need of anyone delaying. Some new men who have been working out lately are Christie, Smelzer and Benario. All of these look good for the high jump, with a little training.

I IN THE TRENCHES

English newspapers which have been received contain a pleasant anecdote of the fighting at Mons. It comes from the French paper the Liberte, and concerns a Scottish regiment which is not named. This regiment was occupying a trench, swept by violent rifle fire and artillery fire, when two privates noticed that a Frenchman attached to the battalion as interpreter occupied the most exposed spot in the trench. One private said: "The Frenchman is badly placed; let's widen his trench," and during a minute, paying no attention to the hail of bullets and shrapnel, the privates deepened the trench, and with the same calm resumed their places.

Mistress—"I distinctly saw you with the policeman's arms around you."
Maid—"Oh, yes, mum; wasn't it nice of him? He was showing me how to hold a burglar if I found one in the house."
Life.

MANY MATTERS DISCUSSED AT COUNCIL.

(Continued from Page 1.)

able students to get first class news of the game as it is being played. Announcements will be made from the Union steps. On Thanksgiving Day the team will go to Ottawa to play an exhibition game against the Rough Riders, when the private telegraph system will be given its initial trial.

Several letters were read from the various clubs. Those of special interest were from the soccer and English Rugby clubs. It was unanimously decided by the council that no financial aid could be guaranteed owing to the financial stringency.

Things Theatrical

ORPHEUM.

The show at the Orpheum this week is quite up to the high average maintained by the manager of that playhouse.

To begin with, the orchestra, which has been newly organized, owing to the strike of theatre hands now on in Montreal, renders some lively and entertaining selections.

Then follow Duke Johnson and Mae Wells, the feature being the one-handed imitation of a quadrille, given by Johnson.

Marie Fitzgibbons, a comedienne who told some dialect stories that tickled the audience; Adler and Arline, in a mock hypnotic turn styled "A New Idea"; Burke and McDonald, in a good Irish sketch, and the usual "movies" are among the less important numbers on the programme.

There are in addition, three "star" acts. The first, a comedy sketch, entitled "Squaring Accounts," introduces

a clever boy actor who has a great line of slang, and an old "grouchy" real estate man who comes around as a result of the boy's chaff.

Maud Lambert and Ernest Ball, the famous composer of comic songs, have a musical turn that would be hard to beat, and which brought forth round after round of applause, and several encores. Mr. Ball was especially good in his rendering of "All the Girls are Lovely by the Sea."

The final act before the Hearst-Silly Weekly was the Golden Troupe, Russian dancers, singers and musicians, who present a very pretty act and have some novel dancing and musical effects.

On the whole, as has been said before, the programme is quite up to the average, or even better.

AT THE LONDON.

The chapter of the "Million Dollar Mystery," which appeared in last Saturday's Star will be shown at the London on Wednesday and Thursday, in addition to their usual programme.

Dr. Leakock Receives Word From Hemming

A very interesting letter has been received from Mr. H. H. Hemming, a last year's graduate in Arts, and winner of the scholarship to one year's attendance at the Ecole des Sciences Politiques, by Dr. Leakock. Mr. Hemming left last May to attend this institution in Paris, but owing to the war this school is now closed. Dr. Leakock's letter states that he had joined the 11th Battalion of the York and Lancashire Regiment on the 22nd of September, with the commission of 2nd Lieutenant.

Mr. Hemming was closely connected with many college activities while attending McGill. He was one of the first members of the C. O. T. C. joining the corps in the year of 1912.

He was made Lieutenant in the following spring, having been given a special examination. He was in command of A Company last year, and attended the training camp held in the spring immediately after the seasonal examinations. He was also a member of the Rifle Club, and on the team that won the coveted Birkett Cup.

Those who knew the "Colonel" as he was commonly known among his friends, will not be surprised to learn of his enlistment. In our Mock Parliament as well as other clubs he always was a strong Imperialist, and was regarded as the most military student in College.

McGill will watch his movements with the keenest interest, and may well be proud of so recent a graduate gaining a commission in this famous regiment.

She—"You know very well that you had to ask me three times before I would consent to be your wife."

He—"Yes, I know, and that only goes to show that it is sometimes possible to be too persistent."—Boston Transcript.
